

5TH KENJI ISHIHARA COLLOQUIUM ON
EARTHQUAKE ENGINEERING

Batılgazi, Central Malatya, Türkiye, Mike Mielen, accessed through EERI photo archive.

Earthquake Engineering Research Institute | San Diego
Regional Chapter Presents:

ADVANCING EARTHQUAKE ENGINEERING AND FUNCTIONAL RECOVERY IN THE WAKE OF THE TURKEY EARTHQUAKE

Join us for this free three-part webinar series on the lessons learned from the 2023 Kahramanmaraş, Turkey Earthquake Sequence. Researchers, expert engineers, and social scientists will come together in this Kenji Ishihara colloquium to discuss structural engineering and the far-reaching social implications of the Turkey earthquake sequence. Experts will share their insights on the lessons learned from the Turkey earthquake and how these are shaping the future of earthquake engineering, disaster preparedness, and response to enhance engineering practices and expedite seismic functional recovery.

2023 || OCT 05 | OCT 12 | OCT 27 || 11AM-2PM PDT

TO REGISTER, VISIT [HTTPS://SANDIEGO.EERI.ORG/5TH-KENJI-ISHIHARA-COLLOQUIUM-SERIES-ON-EARTHQUAKE-ENGINEERING/](https://sandiego.eeri.org/5th-kenji-ishihara-colloquium-series-on-earthquake-engineering/) FOR MORE INFORMATION.
